

## Litigator: Enhanced searching for Trial-Level Facta/Briefs

The search template for Litigator's Pleading Gallery will soon allow for precise searching of facta or briefs filed for trial-level proceedings that do not pertain to a particular motion or appeal. As shown below, you may now easily limit your search to Trial Facta/Briefs or to Application Facta/Briefs, as desired, by clicking on the applicable checkbox(es).

The screenshot displays the Westlaw Canada Litigator search interface. The top navigation bar includes 'Westlaw.CANADA', 'FIND & PRINT', 'KEYCITECANADA', 'DIRECTORY', 'SITE MAP', 'CONTACT US', 'HELP', and 'SIGN OFF'. Below this, there are tabs for 'LawSource', 'CriminalSource', 'FamilySource', 'InsolvencySource', 'SecuritiesSource', 'Westlaw', 'IPSource', and 'Litigator'. The 'Litigator' tab is active, showing a search template for 'Pleadings Databases'. The left sidebar lists various pleading categories, such as 'Business Law Reports (BLR) Pleadings', 'Canadian Cases on Employment Law (CCEL) Pleadings', and 'Canadian Cases on Pensions and Benefits (CCPB) Pleadings'. The main content area is titled 'Terms and Connectors' and 'Natural Language' and 'Template'. It features a blue banner stating: 'Use the Pleading template to access Carswell's collection of claim and defence documents that have been filed with common law courts across Canada.' Below this, there are sections for 'Pleading Types' and 'Trial-Level Facta/Briefs'. The 'Trial-Level Facta/Briefs' section is highlighted with a red circle and contains two checkboxes: 'Trial Facta/Briefs' and 'Application Facta/Briefs'. A 'Search' button and a 'Clear Query' link are also visible. At the bottom, there is a 'Jurisdiction' dropdown menu.
