Litigator Quantums are now available on FamilySource®

New Litigator Quantum links will allow you to access the search templates in a seamless manner. You will not be required to navigate to the Litigator page to use these services.

Litigator's Child Support, Spousal Support and Dependant's Relief Quantum Services present you with historical awards, ranked from highest to lowest, of cases sharing similar circumstances and factors. In a matter of moments, you can ascertain the range of awards, estimate average and typical amounts, assess settlement offers, and advise clients, judges, and counsel accordingly.

Selection of the appropriate quantum service will take you to the Litigator search page, where you will be able to enter your own unique search criteria.

If you are not a Litigator subscriber but you would like to use the Quantums, the service is available on a Pay-Per-View basis. An information page outlining the Litigator quantum service can be accessed through the "More" link on the FamilySource® homepage.
