

CourtDoc Icon

Spot court documents associated with your case with the new icon!

No matter which Source from WestlaweCARSWELL you subscribe to, the icon will make it easier to find actual court documents (pleadings, motions, and facta) within the **Litigator Precedents Collection**.

When looking at a case or decision on any of the Sources and there are court documents associated with that case in the Litigator Precedents Collection, you will see the new CourtDoc icon in the header of the decision as well as just below the KeyCite flag in your Result List:

The screenshot shows the Westlaw CARSWELL interface. At the top, there are navigation tabs: Litigator, LawSource, CriminalSource, FamilySource, InsolvencySrc, and SecuritiesSrc. Below the tabs is a search bar and a 'Result List' with 525 documents. The first result is highlighted, showing the case name 'Walker v. Ritchie' and a 'CourtDoc' icon. The main content area displays the case details, including the court (Supreme Court of Canada), date (2006), and subject matter (Civil Practice and Procedure; Family; Torts). The case details include the names of the parties, the court, and the date of the judgment. The 'CourtDoc' icon is a small icon with three overlapping colored rectangles (green, blue, purple) inside a circle. The interface also includes a 'Related Info' tab and a 'Tools' section at the bottom.

The icon tells you that you are just a few clicks away from the actual court filing for the case you are interested in. Simply click the Related Info tab for the case and select Pleadings, Motions, and Facta links to view comprehensive lists of all court documents associated with the case. Click on the number beside the document of interest to be taken directly to the court document you wish to see!
