

Ability to Search only Tribunal, or only Cases

The Cases Search Templates on all Source tabs now have an option to allow you to limit your search to retrieve court decisions only, or tribunal decisions only, if you wish.

This new drop-down menu has been added to each Cases search template, in the **Limit Results (optional)** section. The default selection remains "All Canadian Decisions".

The screenshot displays the Westlaw CARSWELL LawSource search interface. The top navigation bar includes 'FIND & PRINT', 'KEYCITE CANADA', 'DIRECTORY', 'SITE MAP', 'HELP', and 'SIGN OFF'. Below this, there are tabs for 'LawSource', 'Litigator', 'InsolvencySrc', 'CriminalSource', 'IPSource', 'Estates&TrustsSource', 'FamilySource', and 'SecuritiesSrc'. The main search area is titled 'Search Cases' and includes a search box, a 'Go' button, and a 'Clear Query' link. The 'Limit Results (optional)' section is highlighted, showing three dropdown menus: 'By Jurisdiction' (set to 'All Jurisdictions'), 'By Subject Area' (set to 'All Subjects'), and 'By Decision Type' (set to 'All Canadian Decisions'). A callout box provides a detailed view of the 'By Decision Type' dropdown menu, which lists three options: 'All Canadian Decisions', 'Court Decisions Only', and 'Tribunal Decisions Only'. The 'By Decision Type' dropdown is circled in red in the callout.
