- The Alert Center defaults to weekly frequency. You may change your preferences in the Alert Centre.
- Monthly, bi-weekly, and weekly Alerts within a subscription will record an \$8.00 notional event, which will be displayed in your usage report. You may choose to use or discount the notional value for recovering costs from your client(s).

Daily and weekday (Monday to Friday) frequencies are available only on a Pay-Per-View basis.

- Daily and weekday Alerts will generate an \$8.00 Pay-Per-View charge each time they run on content within and/or outside your WestlaweCARSWELL subscription.
- The charge(s) will appear on your next month's invoice.
- If you choose to set up a daily or weekday Alert, you will have to accept the Pay-Per-View warning before continuing. This is to ensure you consciously choose to incur the cost of higher frequency.
