

Westlaw[®] Canada Quick Reference Card ResultsPlus[®]

When you search any case database Westlaw Canada automatically creates a ResultsPlus list comprised of related Canadian Encyclopedic Digest suggestions for your search or case.

ResultsPlus references are automatically displayed, when appropriate, alongside the citations list for your search result and next to individual documents in your result. It will display up to five suggestions sorted in order of relevancy. With ResultsPlus you can click a link and quickly find the answer to your legal question or expand your understanding of a legal issue.

ResultsPlus suggestions appear when conducting a case search from any Westlaw Canada Custom Search Template, Terms & Connectors or Natural Language screen. They do not appear on any searches from the Table of Contents or for an Encyclopedic or Abridgment Digest.

ResultsPlus for your Search

The ResultsPlus list is based on the search and will list up to five results in relevancy order.

To view the ResultsPlus for your search, click **Full Screen List** located in the upper left corner of the **Result List** tab.

Figure 1: Split-screen view

ResultsPlus appears to the right of the Result List in Full Screen view.

ResultsPlus for Individual Cases

ResultsPlus results for individual cases appear on the Related Info tab located on the left side of the screen. Up to three results will display ordered by relevancy; however, you may link to view more results by clicking View All Results, when applicable. The results are based on the content of the case and not the search terms used to retrieve the case.
