**CAPITAL INTERNATIONAL ASSET MANAGEMENT (CANADA), INC.**
**(the Filer)**

**DECISION**

**Background**

The principal regulator in the Jurisdiction has received an application from the Filer for a decision under the securities legislation of the Jurisdiction of the principal regulator (the **Legislation**), pursuant to section 19.1 of National Instrument 81-102 *Investment Funds* (**NI 81-102**), exempting:

(i) Capital Group World Bond Fund (Canada) (the **Capital Fund**) from the requirements that an investment fund must not purchase or hold a security of another investment fund unless: the other investment fund is a mutual fund that is subject to NI 81-102 and offers or has offered securities under a simplified prospectus in accordance with National Instrument 81-101 *Mutual Fund Prospectus Disclosure* (**NI 81-101**); and the investment fund and the other investment fund are reporting issuers in the local jurisdiction (collectively, the **Underlying Fund Requirements**) in order to permit the Capital Fund to invest up to 10 percent of its net assets in Capital Group Global High Income Opportunities (LUX) (the **Underlying Fund**) (the **Underlying Fund Relief**);

(ii) (a) each of the Capital Fund and all other current and future mutual funds, including exchange-traded funds, managed by the Filer that enter into Cleared Swaps (as defined below) in the future (each, a **Future Fund** and, together with the Capital Fund, each, a **Fund** and, collectively, the **Funds**) from

the requirement in subsection 2.7(1) of NI 81-102 that a mutual fund must not purchase an option or a debt-like security or enter into a swap or a forward contract unless, at the time of the transaction, the option, debt-like security, swap or contract has a designated rating or the equivalent debt of the counterparty, or of a person or company that has fully and unconditionally guaranteed the obligations of the counterparty in respect of the option, debt-like security, swap or contract, has a designated rating;

(b) each Fund from the limitation in subsection 2.7(4) of NI 81-102 that the mark-to-market value of the exposure of a mutual fund under its specified derivatives positions with any one counterparty other than an acceptable clearing corporation or a clearing corporation that clears and settles transactions made on a futures exchange listed in Appendix A to NI 81-102 shall not exceed, for a period of 30 days or more, 10 percent of the net asset value of the mutual fund; and

(c) each Fund from the requirement in subsection 6.1(1) of NI 81-102 to hold all portfolio assets of an investment fund under the custodianship of one custodian in order to permit each Fund to deposit cash and other portfolio assets directly with a Futures Commission Merchant (as defined below) and indirectly with a Clearing Corporation (as defined below) as margin,

in each case, with respect to Cleared Swaps (as defined below) (collectively, the **Cleared Swaps Relief**)

collectively, the **Requested Relief**.

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

(a) the Ontario Securities Commission is the principal regulator for this application; and

(b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 *Passport System* (**MI 11-102**) is intended to be relied upon in each of the other provinces and territories of Canada (the **Other Jurisdictions** and collectively with Ontario, the **Jurisdictions**).

**U.S. Person** has the meaning attributed thereto by the CFTC

**Representations**

This decision is based on the following facts represented by the Filer:

***The Filer and the Funds***

1. The Filer is, or will be, the investment fund manager of each Fund. The Filer is registered as an investment fund manager in Ontario, Québec and Newfoundland and Labrador, as an adviser in the category of portfolio manager in Ontario, and as a dealer in the category of exempt market dealer in Alberta, British Columbia, Nova Scotia, Ontario and Québec. The head office of the Filer is in Toronto, Ontario.

2. The Filer is a wholly-owned subsidiary of Capital International Asset Management, Inc., a company based in Los Angeles, California, which is wholly-owned by Capital Group. Capital Group is a global investment management firm founded in 1931, which through its affiliated companies manages stock and bond portfolios for institutional and retail clients around the world. Capital Group is one of the largest and oldest investment management organizations in the United States. In addition to Canada, Capital Group and its subsidiaries maintain offices in the United States, Switzerland, England, Hong Kong, Japan and Singapore.

3. The Filer is, or will be, the portfolio manager to all or a portion of the portfolios of the Funds. CRMC will be the portfolio manager to the futures contracts and futures options portfolio of the Capital Fund and will be the sub-advisor to the remaining portfolio of the Capital Fund. One of the Advisors is, or will be, the sub-advisor to the other Funds.

4. Each Fund is, or will be, a mutual fund created under the laws of the Province of Ontario and is, or will be, subject to the provisions of NI 81-102.

5. Neither the Filer nor the Funds are, or will be, in default of securities legislation in the Jurisdictions.

6. The securities of each Fund are, or will be, qualified for distribution pursuant to a prospectus that was, or will be, prepared and filed in accordance with the securities legislation of the Jurisdictions. Accordingly, each Fund is, or will be, a reporting issuer or the equivalent in each Jurisdiction.

***Underlying Fund Relief***

7. The investment objective of the Capital Fund will be to seek to provide, over the long term, a high level of total return consistent with prudent investment management through investments primarily in bonds and other debt securities of global issuers. Total return comprises the income generated by the Capital Fund and the changes in the market value of the Capital Fund's investments.

8. A wholly-owned subsidiary of Capital Group, Capital Group International, Inc., is the parent company of the Luxembourg-based subsidiary, CIMC. As of June 30, 2017, CIMC managed more than USD 11 billion, USD 5.7 billion of which was invested in eighteen investment funds, which are all sub-funds of CIF. CIF includes the Underlying Fund. As of June 30, 2017, the Underlying Fund had USD 672.9 million of assets under management.

9. The Underlying Fund is distributed in several European countries pursuant to the European Union regulations of collective investment schemes, known as the UCITS Directives, which permit the distribution of UCITS in more than one country provided the UCITS Directives are followed. As SICAVs organized under Part I of the Luxembourg law on collective investment vehicles, CIF and all of its sub-funds including the Underlying Fund, qualify as UCITS.

10. The Underlying Fund has filed a prospectus with Luxembourg's financial sector regulator, Commission de Surveillance du Secteur Financier, that contains disclosure regarding the Underlying Fund. The Underlying Fund is a conventional mutual fund and would not be considered a hedge fund. The Underlying Fund does not invest more than 10% of its net asset value in other investment funds.

11. The investment objective of the Underlying Fund is to seek a long-term high level of total return through investment primarily in corporate or government high yield bonds that are usually listed or traded on other regulated markets and denominated in various national currencies (including emerging markets currencies) or multinational currencies. Unlisted high yield bonds may also be purchased.

12. In order for the Capital Fund to achieve its investment objective on a diversified basis and obtain broad exposure to the sectors it proposes to invest in, including global high yield exposure, it is desirable that it be permitted to allocate up to 10% of net assets to the Underlying Fund.

13. The Underlying Fund is a low-cost mutual fund whose investment strategy and objective make it a very suitable investment for the Capital Fund. The Underlying Fund is managed by portfolio managers within the Capital Group and, accordingly, the Filer will benefit from understanding its investments and the management style of its portfolio managers, which understanding will benefit the Capital Fund.

14. The Filer believes that it is in the best interests of the Capital Fund for investments to be made in the Underlying Fund. Investing directly in separate securities to allow direct exposure to the type of securities invested in by the Underlying Fund is a less desirable option owing to the increased costs and inefficiencies that are associated with such direct investing.

15. The Capital Fund's investment in the Underlying Fund is not for the purpose of distributing the Underlying Fund to the Canadian public. The investments by the Capital Fund in the Underlying Fund are proposed not to allow the Underlying Fund to be indirectly distributed in Canada, but to allow the Capital Fund to achieve its investment objective by investing, to a very limited extent, in a unique, suitable and professionally managed lower-cost mutual fund, where the investment style and approach is known to the manager of the Capital Fund.

16. The Underlying Fund is subject to investment restrictions and practices under the laws of Luxembourg that are applicable to mutual funds that are sold to the general public and that are consistent with similar restrictions and practices applicable to mutual funds under NI 81-102.

17. The Capital Fund will otherwise comply fully with section 2.5 of NI 81-102 in investing in the Underlying Fund and will provide all disclosure mandated for mutual funds investing in other mutual funds.

***Cleared Swaps Relief***

18. The investment objective and investment strategies of each Fund permit, or will permit, the Fund to enter into derivative transactions, including Cleared Swaps. CRMC, the entity that will be the Advisor of the Capital Fund, considers Cleared Swaps to be an important investment tool that is available to it to properly manage the Capital Fund's portfolio. The Capital Fund intends to use interest rate swaps and/or credit default swaps in its portfolio.

19. Dodd-Frank requires that certain OTC derivatives be cleared through a Futures Commission Merchant at a Clearing Corporation.

20. also requires that certain OTC derivatives be cleared through a central counterparty authorized to provide clearing services for purposes of EMIR. Generally, where one party to a swap is a financial counterparty or a non-financial counterparty whose OTC derivative trading activity exceeds a certain threshold, in each case established in a state that is a participant in the European Economic Area, that swap will be required to be cleared.

21. In addition to clearing swaps that are mandated to be cleared under Dodd-Frank and/or EMIR, many of the Clearing Corporations offer clearing services in respect of other types of derivative transactions. Many global derivative end-users enter into Cleared Swaps on both a voluntary and a mandatory basis.

22. In order to benefit from both the pricing benefits and reduced trading costs that each Advisor is often able to achieve through its trade execution practices for its managed investment funds and accounts and from the reduced costs associated with Cleared Swaps as compared to other OTC trades, the Filer wishes that the Funds have the ability to enter into Cleared Swaps.

23. In the absence of the Cleared Swaps Relief, each Advisor will need to structure the derivative transactions entered into by the applicable Funds so as to avoid clearing, including the clearing requirements of the CFTC and under EMIR, as

applicable. This would not be in the best interests of the Funds and their investors for a number of reasons, as set out below.

24. It is in the best interests of the Funds and their investors to continue to be able to execute OTC derivatives with global counterparties, including U.S. and European swap dealers.

25. An Advisor may use common trade execution practices for all of its accounts, including the Funds. If these practices involve the use of Cleared Swaps and if the Funds are unable to employ these trade execution practices, then the Advisor would have to create separate trade execution practices only for the Funds and would have to execute trades for the Funds on a separate basis. This would increase the operational risk for the Funds and would prevent the Funds from benefitting from the pricing benefits and reduced trading costs that an Advisor may be able to achieve through common practices for its advised accounts. Best execution and maximum certainty can best be achieved through common trade execution practices, which, in the case of OTC derivatives, involve the execution of Cleared Swaps.

26. In its role as a fiduciary for the Funds, the Filer has determined that central clearing represents a good choice for the investors in the Funds to mitigate the legal, operational and back office risks faced by investors in the global swap markets.

27. As a member of the G20 and a participant in the September 2009 commitment of G20 nations to improve transparency and mitigate risk in derivatives markets, Canada has expressly recognized the systemic benefits that clearing OTC derivatives offers to market participants, such as the Funds. The Funds should be encouraged to comply with the robust clearing requirements established by the CFTC and under EMIR by granting them the Cleared Swaps Relief.

28. The Cleared Swaps Relief is analogous to the treatment currently afforded under NI 81-102 to other types of derivatives that are cleared, i.e., clearing corporation options, options on futures and standardized futures. This demonstrates that, from a policy perspective, such Cleared Swaps Relief is consistent with the views of the Canadian securities authorities in respect of cleared derivative trades.

**Decision**

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Requested Relief is granted provided that:

(i) in the case of the Underlying Fund Relief:

  (a) the Underlying Fund is subject to investment restrictions and practices under the laws of Luxembourg that are applicable to mutual funds that are sold to the general public and is a regulated investment fund authorized as a UCITS;

  (b) the Capital Fund will otherwise comply fully with section 2.5 of NI 81-102 in its investment in the Underlying Fund and will provide all disclosure mandated for investment funds investing in other investment funds;

  (c) the Capital Fund will not purchase securities of the Underlying Fund if, immediately after the purchase, more than 10 percent of its net assets would consist of investments in the Underlying Fund; and

  (d) if the laws applicable to the Underlying Fund that are, as at the date of this decision, substantially similar to Part 2 of NI 81-102 change in a manner that is materially inconsistent with Part 2 of NI 81-102, the Capital Fund shall not acquire any additional securities of the Underlying Fund, and shall dispose of the securities of the Underlying Fund then held in an orderly and prudent manner;

(ii) in the case of the Cleared Swaps Relief, when any rules applicable to customer clearing of OTC derivatives enter into force, the Clearing Corporation is permitted to offer customer clearing of OTC derivatives in the Jurisdictions where the applicable Fund is located and provided further that, in respect of the deposit of cash and other portfolio assets as margin:

  (a) in Canada,

    i. the Futures Commission Merchant is a member of a SRO that is a participating member of CIPF; and

ii. the amount of margin deposited and maintained with the Futures Commission Merchant does not, when aggregated with the amount of margin already held by the Futures Commission Merchant, exceed 10 percent of the net asset value of the Fund as at the time of deposit; and

(b) outside of Canada,

i. the Futures Commission Merchant is a member of a Clearing Corporation and, as a result, is subject to a regulatory audit;

ii. the Futures Commission Merchant has a net worth, determined from its most recent audited financial statements that have been made public or from other publicly available financial information, in excess of the equivalent of $50 million; and

iii. the amount of margin deposited and maintained with the Futures Commission Merchant does not, when aggregated with the amount of margin already held by the Futures Commission Merchant, exceed 10 percent of the net asset value of the Fund as at the time of deposit.

(c) this decision with respect to the Cleared Swaps Relief will terminate on the coming into force of any revisions to the provisions of NI 81-102 that address the clearing of OTC derivatives.

**DECISION**

**Background**

The principal regulator in the Jurisdiction has received an application from the Filer, on behalf of existing mutual funds that are managed by the Filer and future mutual funds that are managed by the Filer or an affiliate of the Filer (the **Funds**), for a decision (the **Exemption Sought**) under the securities legislation of the Jurisdiction of the principal regulator (the **Legislation**) exempting each Fund from the requirements in subsections 15.3(2), paragraph 15.3(4)(c), subparagraph 15.6(1)(a)(i) and (d), and paragraphs 15.8(2)(a) and (a.1) and 15.8(3)(a) and (a.1) of National Instrument 81-102 *Investment Funds* (**NI 81-102**), to permit the Funds to show in sales communications, as the performance data for each Fee Tier Class (as defined below), the performance data of the corresponding Main Class (as defined below) for the time period prior to the Commencement Date (as defined below) of the applicable Fee Tier Class.

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

(a) the Ontario Securities Commission is the principal regulator for this application; and

(b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 *Passport System* (**MI 11-102**) is intended to be relied upon in each of the other provinces and territories of Canada (the **Other Jurisdictions** and, together with the Jurisdiction, the **Jurisdictions**).

**Interpretation**

Terms defined in MI 11-102 and National Instrument 14-101 *Definitions* have the same meaning if used in this decision, unless otherwise defined.

**Representations**

The decision is based on the following facts represented by the Filer:

***The Filer***

1. The Filer is a corporation subsisting under the laws of Ontario with its head office located in Toronto, Ontario. The Filer is registered:

   (a) under the securities legislation of all provinces of Canada as a portfolio manager;

   (b) under the securities legislation of Ontario, Québec, and Newfoundland and Labrador as an investment fund manager;

   (c) under the securities legislation of Ontario as an exempt market dealer; and

   (d) under the *Commodity Futures Act* (Ontario) as a commodity trading counsel and a commodity trading manager.

2. The Filer is not in default of securities legislation in any Jurisdiction.

3. The Filer, or an affiliate of the Filer, is or will be the manager of each Fund.

***The Funds***

4. Each Fund is, or will be, an open-end mutual fund trust created under the laws of Ontario or an open-end mutual fund that is a class of shares of a mutual fund corporation. The Funds are, or will be, offered under two main families, namely “CI Funds” and “United Funds”.

5. Each Fund is, or will be, a reporting issuer under the laws of the Jurisdictions and is or will be subject to NI 81-102. The securities of each existing Fund are qualified for distribution pursuant to an amended and restated simplified prospectus, Fund Facts and annual information form dated March 10, 2017 or March 13, 2017, as applicable (together, the **Prospectus**) and as amended, that have been, or will be, prepared, filed and receipted in accordance with applicable securities legislation. The units or shares of each Fund are referred to herein collectively as Securities.

6. In addition to the Fee Tier Classes, CI Funds are currently offered in over 30 classes of Securities, including Class A, AT5, AT8, F, FT5 and FT8 (the **Class A and F Securities**).

7. In addition to the Fee Tier Classes, United Funds are currently offered in approximately ten classes of Securities, including Class E, ET8, F and FT8 (the **Class E and F Securities** and together with Class A and F Securities, the **Main Class**).

8. Class A Securities of CI Funds and Class E Securities of United Funds are currently offered on an initial sales charge (**ISC**) basis or on a deferred sales charge (**DSC**) basis, at the option of the investor. Under the ISC purchase option, investors pay a commission to their dealer at the time they purchase Securities, while under the DSC purchase option, no commission is paid by the investor at the time of purchase, but the investor will be required to pay a redemption fee if he or she redeems within seven years from the date of purchase (under standard DSC and intermediate DSC) or three years from the date of purchase (under low load) (the **DSC Periods**). Class A Securities of CI Funds and Class E Securities of United Funds purchased under the ISC option are herein referred to as the **Main Class ISC Securities**, and Class A Securities of CI Funds and Class E Securities of United Funds purchased under the DSC option are herein referred to as the **Main Class DSC Securities**.

9. The existing Funds are not in default of securities legislation in any of the Jurisdictions.

***The Program***

10. The Filer has created a new set of classes of securities of the Funds offering tiered management and fixed administration fees (the **Fee Tier Classes**) corresponding to each Main Class (e.g., A1, A2, A3, A4 and A5, F1, F2, F3, F4 and F5, and E1, E2, E3, E4 and E5). Investors could qualify for lower combined management and fixed administration fees under the Filer’s preferred pricing program (the **Program**). Under the Program, each set of Fee Tier Classes will offer progressively lower combined management and fixed administration fees compared to their respective Main Classes, based on the value of Fund holdings in the investor’s account or, in certain instances, the group of related accounts of which the investor is a member (the **Asset Levels**).

11. The Fee Tier Classes of a Fund are identical amongst themselves and to their respective Main Classes other than having different combined management and fixed administration fees.

12. Investors may only access Fee Tier Classes of a Fund by initially investing in Class F securities or Main Class ISC Securities, or acquiring Main Class ISC Securities upon a conversion from qualifying Main Class DSC Securities of that Fund after the expiration of the DSC Period. The Filer will program its system to monitor each investor's Asset Level on a weekly basis to determine which Fee Tier Class the investor qualifies for and automatically switch the investor's investments to the appropriate Fee Tier Class, without the dealer or investor having to initiate the trade.

13. Once an investor has qualified for a Fee Tier Class, he or she will continue to enjoy the benefit of lower combined management and fixed administration fees associated with such Fee Tier Class, even if fund performance reduces his or her Asset Level below such Fee Tier Class' minimum threshold.

14. For investors that qualify for a Fee Tier Class, the Filer will automatically switch:

    (a) Class F Securities and Main Class ISC Securities into the appropriate Fee Tier Class of the same Fund;

    (b) Securities in one of the Fee Tier Classes to the appropriate lower-fee Fee Tier Class of the same Fund based on increases in Asset Level as a result of additional purchases and/or positive fund performance; and

    (c) Securities in one of the Fee Tier Classes to the applicable higher-fee Fee Tier Class of the same Fund or back to the corresponding Main Class of the same Fund, when the investor no longer meets the applicable Asset Level threshold as a result of redemptions

    (collectively, the **Automatic Switches**).

15. The Filer will also automatically convert Main Class DSC Securities purchased into Main Class ISC Securities of the same Fund once investors who qualify for the Program have held their Securities for the DSC Period, after which an Automatic Switch to the appropriate Fee Tier Class of the same Fund will be implemented.

16. Further to each Automatic Switch to the appropriate Fee Tier Class, an investor would continue to hold Securities in the same Fund(s) with the only material difference to the investor being that the combined management and fixed administration fees associated with the Fee Tier Class will be lower than those associated with the previously-held Main Class. In no event will an investor who qualifies for a Fee Tier Class pay more than the combined management and fixed administration fees associated with the Main Class, for which the investor originally subscribed or acquired.

17. On February 10, 2017, the Filer obtained relief from certain requirements in Form 81-101F3 to permit the Funds to prepare consolidated fund facts documents for the Main Classes that includes information relating to the eligibility requirements for the Program and Fee Tier Classes.

18. On March 31, 2017, the Filer obtained receipts for the Prospectus of each existing Fund to qualify the Fee Tier Class Securities for distribution and to reflect the lower combined management and administration fees charged in respect of the Fee Tier Classes.

***Fee Tier Class Performance Data***

19. Each of the Fee Tier Classes, being new, will not have performance data for the time period prior to the start date of the Fee Tier Class (the **Commencement Date**). However, as each Fee Tier Class corresponds to a Main Class of the same Fund prior to the Commencement Date, the actual performance of each Fee Tier Class, for the time period prior to the Commencement Date, is identical to the performance of the corresponding Main Class of the same Fund during that time period.

20. The Filer proposes to:

    (a) show, in the sales communications of the Funds, as the performance data for each Fee Tier Class of the Funds, the performance data of the corresponding Main Class, for the time period prior to the Commencement Date of the applicable Fee Tier Class; and

    (b) disclose, in those sales communications:

        (i) that the performance data displayed for the period occurring prior to the Commencement Date of the applicable Fee Tier Class is that of the corresponding Main Class;

        (ii) that the corresponding Main Class has higher combined management and administration fees than the applicable Fee Tier Class; and

(iii) if there is a material effect on performance of the applicable Fee Tier Class, how the difference in combined management and administration fees between the applicable Fee Tier Class and the corresponding Main Class would have affected the past performance shown had the Fee Tier Class existed as a separate class during that period

(collectively, the **Past Performance Disclosure**).

21. The Filer submits that the past performance data of the Main Class is significant and meaningful information for existing investors that are switched to the Fee Tier Classes upon Program qualification, who, prior to the Automatic Switch, were investors in the Main Class Securities for which they originally subscribed or acquired. Such information is meaningful to prospective investors in the Program as well, as it provides a fuller picture upon which investors can make an informed investment decision.

22. The Filer submits that investors will not be misled if the past performance data of the applicable Main Class is shown for the corresponding Fee Tier Class of the same Fund for the period prior to the Commencement Date.

23. In the absence of the Exemption Sought, the Funds' sales communications cannot show, as the performance data of the Fee Tier Classes, performance data of their corresponding Main Classes, where such performance data relates to the time period prior to the Commencement Dates of the Fee Tier Classes.

**Decision**

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted provided that, for any sales communications presenting performance data relating to a Fee Tier Class for a time period prior to the Commencement Date of such Fee Tier Class, the sales communication includes the Past Performance Disclosure.

exchanges and applicable European law and regulations. Permitted Clients in Ontario will have the same contractual rights against BB PLC as U.K. clients of BB PLC.

23. BB PLC is required under U.K. securities laws to categorize its clients using three categories (who are afforded a descending level of regulatory protection): (1) retail clients; (2) professional clients; and (3) eligible counterparties. Permitted Clients would generally fall into the categories of "professional clients" and "eligible counterparties". The levels of regulatory protection afforded to these categories of clients are substantially similar to those afforded to Permitted Clients.

24. Permitted Clients will be afforded the benefits of compliance by BCI with the requirements of the CEA and the regulations thereunder, and the Exchange Act and the regulations thereunder. Permitted Clients in Ontario will have the same contractual rights against BCI as U.S. clients of BCI.

25. The Applicants will not maintain an office, sales force or physical place of business in Ontario.

26. The Applicants will solicit trades in Exchange-Traded Futures in Ontario only from persons who qualify as Permitted Clients.

27. Permitted Clients of the Applicants will only be offered the ability to effect trades in Exchange-Traded Futures on Non-Canadian Exchanges.

28. The Exchange-Traded Futures to be traded by Permitted Clients will include, but will not be limited to, Exchange-Traded Futures for equity index, interest rate, foreign exchange, bond, energy, agricultural and other commodity products.

29. Permitted Clients of the Applicants will be able to execute Exchange-Traded Futures orders through the Applicants by contacting their global execution desks. Permitted Clients may also be able to self-execute Exchange-Traded Futures orders electronically via an independent service vendor and/or other electronic trading routing. Permitted Clients may also be able to execute Exchange-Traded Futures orders through third party brokers and then "give up" the transaction for clearance through the Applicants.

30. The Applicants may execute a Permitted Client's order on the relevant Non-Canadian Exchange in accordance with the rules and customary practices of the exchange, or engage another broker to assist in the execution of orders. The Applicants will remain responsible for all executions when the Applicants are listed as the executing broker of record on the relevant Non-Canadian Exchange.

31. The Applicants may perform both execution and clearing functions for trades in Exchange-Traded Futures or may direct that a trade executed by them be cleared through a carrying broker if the Applicants are not clearing members of the Non-Canadian Exchange on which the trade is executed and cleared. Alternatively, the Permitted Client of the Applicants will be able to direct that trades executed by the Applicants be cleared through clearing brokers not affiliated with the Applicants in any way (each a **Non-Barclays Clearing Broker**).

32. If the Applicants perform only the execution of a Permitted Client's Exchange-Traded Futures order and "give-up" the transaction for clearance to a Non-Barclays Clearing Broker, such clearing broker will also be required to comply with the rules of the exchanges of which it is a member and any relevant regulatory requirements, including requirements under the CFA as applicable. Each such Non-Barclays Clearing Broker will represent to the Applicants in an industry-standard give-up agreement, that it will perform its obligations in accordance with applicable laws, governmental, regulatory, self-regulatory, exchange and clearing house rules and the customs and usages of the exchange or clearing house on which the relevant Permitted Client's Exchange-Traded Futures order will be executed and cleared. The Applicants will not enter into a give-up agreement with any Non-Barclays Clearing Broker located in (i) the U.S. unless such clearing broker is registered with the CFTC and/or the SEC, as applicable, or (ii) the U.K. unless such clearing broker is authorized by the PRA or FCA, as required.

33. As is customary for all trades in Exchange-Traded Futures, a clearing corporation appointed by the exchange or clearing division of the exchange is substituted as a universal counterparty on all trades in Exchange-Traded Futures and Permitted Client orders that are submitted to the exchange in the name of the Non-Barclays Clearing Broker or the Applicants or, on exchanges where the Applicants are not members, in the name of another carrying broker. The Permitted Client of an Applicant is responsible to that Applicant for payment of daily mark-to-market variation margin and/or proper margin to carry open positions and the Applicant, the carrying broker or the Non-Barclays Clearing Broker is in turn responsible to the clearing corporation/division for payment.

34. Permitted Clients that direct the Applicants to give up transactions in Exchange-Traded Futures for clearance and settlement by Non-Barclays Clearing Brokers will execute the give-up agreements described above.

35. Permitted Clients will pay commissions for trades to the Applicants. In the event that the Applicants need to utilize a Non-Barclays Clearing Broker for clearing or execution services in relation to such trades, the Applicants will generally pay commissions to the Non-Barclays Clearing Broker.

36. The trading restrictions in the CFA apply unless, among other things, an Exchange-Traded Future is traded on a recognized or registered commodity futures exchange and the form of the contract is approved by the Director. To date, no Non-Canadian Exchanges have been recognized or registered under the CFA.

37. If the Applicants were registered under the CFA as "futures commission merchants", they could rely upon certain exemptions from the trading restrictions in the CFA to effect trades in Exchange-Traded Futures to be entered into on certain Non-Canadian Exchanges.

38. Section 3.1 of Rule 91-502 provides that no person shall trade as agent in, or give advice in respect of, a recognized option, as defined in section 1.1 of Rule 91-502, unless he or she has successfully completed the Canadian Options Course (which has been replaced by the Derivatives Fundamentals Course and the Options Licensing Course).

39. All Representatives of BB PLC who trade futures and options in the U.K. need to have attained and maintain a level of skills, knowledge and expertise to discharge their responsibilities in accordance with the FCA's Training and Competency Handbook. Ordinarily, Representatives who trade futures and options will have passed examinations in U.K. Financial Regulation and Securities and/or Derivatives administered by the Chartered Institute for Securities & Investment (CISI) under its Capital Markets Programme.

40. Under the U.K. Senior Managers & Certification Regime, these Representatives will be classified by BB PLC as certified individuals. Although these Representatives will not be subject to direct approval by the FCA or the PRA, BB PLC must take reasonable care to ensure that a Representative does not perform a certification function without having first been certified as fit and proper to do so. This certification must be renewed on an annual basis.

41. All Representatives of BCI who trade options in the U.S. have passed the National Commodity Futures Examination (Series 3), being the relevant futures and options proficiency examination administered by FINRA.

**AND UPON** the Commission and Director being satisfied that it would not be prejudicial to the public interest to grant the exemptions requested;

**IT IS RULED**, pursuant to section 38 of the CFA, that the Applicants are not subject to the dealer registration requirement set out in the CFA or the trading restrictions in the CFA in connection with trades in Exchange-Traded Futures where the Applicants are acting as principal or agent in such trades to, from or on behalf of Permitted Clients provided that:
